

Dissertation – Supervisor

Below please find some information on the supervision of your dissertation. Please start searching for a supervisor in time, we recommend 6 months before you have to hand in your proposal.

You have different possibilities how you can search for a supervisor:

1. You can choose an external supervisor, e.g. from your company. Especially if your dissertation topic refers to your business activities, this is a good chance which you should take as possible. Please be aware that your supervisor must have an academic background and that you should not be in a state of dependence (e.g. he should not be your disciplinarian). An external supervisor has to be approved by I-IMC: please send a CV of your potential supervisor including a short statement why you chose this person to your programme manager.
2. You can choose every lecture from I-IMC. Contact data can be provided by our front office.
3. You can choose every professor from Fachhochschule Ludwigshafen and in future from Berufsakademie Mannheim (information will be distributed soon).
4. Of course Prof. Reineke and Prof. Bock are also potential supervisors. Prof. Niedereichholz is going to retire by end of the summer term and is therefore not available for dissertation supervision any more. If you plan to ask Prof. Reineke or Prof. Bock please do that in due time as they only can supervise a limited number of dissertations and will accept candidates first come – first serve.
5. If you can not find a supervisor, please contact your programme manager at least 4 weeks before the deadline for handing in your dissertation proposal. We will than support your search for a supervisor.
